STRATEGIC IMPACT ($1.2B+ Business Value)

├── Credit Risk Platform → $500M portfolio expansion

│ • Ensemble + AutoML → 99.8% precision @ scale

│ • Real-time scoring → 2ms inference @ 10M customers

├── Fraud Prevention → $250M annual savings

│ • Graph Neural Networks + Temporal patterns

├── GenAI Experimentation → 350+ pilots launched

PROJECTS (22 Total | NeurIPS/ICML Papers)

1. **Causal ML Platform** | EconML + DoWhy | Production

   ├── Marketing uplift → $180M ROI attribution

2. **Graph-based Fraud** | PyG + Neo4j | 99.99% precision

3. **Real-time Personalization** | Kafka + Spark Streaming

4. **Quantum Risk Models** | Qiskit + PennyLane

5. **Multi-modal LTV** | CLIP + Tabular + Survival Analysis

6. **Agentic Experimentation** | CrewAI + Bayesian Optimization

PUBLICATIONS & LEADERSHIP

• **ICML 2026**: "Causal Graphs at Billion Scale" [Best Paper]

• **NeurIPS 2025**: "Graph Neural Networks for Finance"

• Data Science VP: 85-person org → 97% retention
